SUBJECT INDEX FOR VOLUME 33, 1971

A

Absorption, mineral
  Influence of dietary iron and phosphorus on performance, tissue mineral composition and, in steers, 171
Abstracts
  Annual Meeting, A.S.A.S., 193
  Midwestern Section, A.S.A.S., 1137
  North Atlantic Section, A.S.A.S. and Eastern Division, A.D.S.A., 312
Acceptability, panel
  Of products containing boar meat, 26
Acids, volatile
  Digestion coefficients, blood glucose levels and molar percentage of, in intestinal fluid of ponies fed varying forage-grain ratios, 992
Adipose tisue concentrations
  Of certain pesticides in steers fed apple waste during different parts of the finishing period, 1356
Age
  And weight at puberty in Hereford heifers, 401
Age, effects of
  And sex on quality, tenderness and collagen content of bovine *longissimus* muscle, 933
Air displacement
  A comparison of two systems for measuring volume by, 1237
Air-separated stem fraction
  Utilization of, of dehydrated alfalfa meal by lambs, 903
Aldrin
  Urea and, in all-concentrate and high roughage diets fed to diethylstilbestrol-implanted heifers, 520
Alfalfa meal, dehydrated
  Utilization of air-separated stem fraction of, by lambs, 903
Alfalfa products, dehydrated
  Effect of, on the utilization of urea nitrogen in beef cattle, 671
Alfalfa-timothy, wilted
  Intake and digestibility by sheep of, or corn silages ensiled at low and high dry matter levels, 1315
Alkali
  Relationship of, and Ringer insoluble collagen to tenderness of beef heated at two rates, 958
Amino acid content, free
  Of ovine cervicovaginal mucus, 430
Amino acids
  Limiting, in Colombian *floury-2* corn for growth of young rats, 787
Amino acids, free
  Growth and reproductive performance of bulls and heifers fed purified and natural diets. V., in the semen and blood plasma of bulls (puberty to 148 weeks of age), 814
Amino acids, sulfur
  Body weight gain and wool growth response to formaldehyde treated casein and, 137
Ammonium polyphosphate
  Effects of added urea and, to corn stover silages on animal performance, 1091
  Effects of added urea and, on fermentation of corn stover silages, 1097
Ammonium salts of volatile fatty acids
  Influence of, upon ration digestibility, rumen fermentation and nitrogen retention by steers, 1110
Androst, 5α-, 16-en-3-one
  Determination of, a boar taint steroid in pigs, with relationships to testosterone, 1293
Angoni bulls (Short Horn Zebu)
  Puberty and related phenomena in, 647
  Seasonal changes in the ejaculate characteristics of, 651
Angus-Holstein crossbreds
  Productivity as two-year-olds of, compared to Angus heifers under range conditions, 337
Animal breeding
  In the tropics of Latin America, 1
Animal, measurements of
  Analysis of repeated, 331
Animal nutrition in the tropics
  Problems and solutions, 843
Animal Science
  Is, training future teachers, 179
Apple waste
  Adipose tissue concentrations of certain pesticides in steers fed, during different parts of the finishing period, 1356
  Effects of feeding activated carbon on growth rate and pesticide concentrations in adipose tissues of steers fed, 1361
Assays
  Log log interpolation for, using liquid scintillation, 819

B

Backfat
  Maternal effects on weights and, of swine, 1206
Backfat deposition
  Body weight and, in swine: Curves and correction factors, 911
Beef, dark-cutting
  Respiration of mitochondria isolated from, 574
Beet pulp
  Effect of, and citrus pulp on rumination activity, 472
Beef, tenderness of
  Relationship of alkali and Ringer insoluble collagen to, heated at two rates, 958
Beef-carcass traits, selected
  Genetic parameters for, 13
Birth weight, calf
  Cause and effect relationships associated with calving difficulty and, 407
Biuret
  And urea in supplements for bovines fed green chop elephant grass, 133
Bloat, feedlot
  Bloat in cattle. XV. The relation of viscosity and and cell-free polysaccharide content of rumen fluid to, 1018
Bloat in cattle
  XV. The relation of viscosity and cell-free polysaccharide content of rumen fluid to feedlot bloat, 1018
Blood
  Effects of feeding alkali-treated oat straw supplemented with soybean meal or nonprotein nitro-

gen on growth of lambs and on certain, and rumen liquor parameters, 485
Blood constitutents in swine
Effects of dietary protein and iron on reproduction and iron-related, 376
Boar meat
Panel acceptability of products containing, 26
Boars
Testosterone levels of, at various ages, 124
Body composition
Body measurements of beef calves and traits of their dams to predict calf performance and, as indicated by fat thickness and condition score, 7
Cellular basis for changes in, 416
Body measurements
Of beef calves and traits of their dams to predict calf performance and body composition as indicated by fat thickness and condition score, 7
Body size, precalving
And pelvic area relationships in Hereford heifers, 455
Body weight
And backfat deposition in swine: Curves and correction factors, 991
Bovine muscle, glycogen from:
Partial characterization of the water extracted product, 23
Breed, effect of
Ration energy and their interactions on rate and efficiency of lamb growth, 157
Breeding pattern
In Targhee ewes and ewe lambs throughout the year, 1278
Bulls
Growth and reproductive performance of, and heifers fed purified and natural diets. IV. Semen characteristics, body measurements and fertility of, (22 to 156 weeks of age), 808
Growth and reproductive performance of, and heifers fed purified and natural diets. V. Free amino acids in the semen and blood plasma of, (puberty to 148 weeks of age), 814
Bulls, Hereford
Pubertal relationships of some endocrine and reproductive criteria in, 823

C

^{14}C-labeled octadecane
Metabolism of, by cattle, 1351
Calf performance
Body measurements of beef calves and traits of their dams to predict, and body composition as indicated by fat thickness and condition score, 7
Calves, beef
Conventional selection indexes for birth and weaning traits in, 537
Milk yield and its influence on 205-day weight of, 563
Calves, bull
Compensatory growth in intensively raised, 1078
Calves, superovulated
Anatomical and histological observations on reproductive organs in, 799
Calving difficulty
Cause and effect relationships associated with, and calf birth weight, 407
Carbohydrate
Changes in, and nitrogen fractions and digestibility of forages: Methods of sample processing, 1072
Carbohydrates, utilization of
Certain aspects of the, by the neonatal pig, 983
Carbon, activated
Effects of feeding, on growth rate and pesticide concentrations in adipose tissues of steers fed apple waste, 1361
Carbohydrate utilization
Ruminal and postruminal, in steers fed processed sorghum grain, 1371
Carcass composition
Effects of digestible protein to digestible energy ratio diets on quantitative and qualitative, of beef, 355
Carcass evaluation, beef
Chemical composition as related to selected measurements used in, 744
Carcass quality of swine
Influence of hormone supplementation, dietary protein levels and sex on the performance and, 780
Carcass traits
Effects of housing system and duration on quantitative and qualitative, in swine, 18
Carcass traits, predictors of
Evaluation of the seventh rib probe and body weight as, in Hampshire lambs, 568
Casein
Comparative utilization of, fish protein concentrate and isolated soybean protein in liquid diets for growth of baby pigs, 587
Casein, formaldehyde treated
Body weight gain and wool growth response to, and sulfur amino acids, 137
Cattle
Effect of feeding, fasting and infusion of energy substrates on plasma growth hormone levels in, 612
Metabolism of ^{14}C-labeled octadecane by, 1351
Cattle, beef
Duration of heat exposure and performance of, 850
Genetic-environmental interactions in identical and fraternal twin, I. Growth from 7 to 24 months of age, 1177
Genetic relationships among growth and carcass traits of, 550
Newsprint as a feedstuff for, 1344
Cattle feedlot
Behavior of, during two seasons, 72
Cattle, Hereford
Performance of two lines of, in two environments, 923
Cattle, male Hereford and Angus
Effect of sex condition on growth and carcass traits of, 1242
Cattle, tropically adapted
Physiology of pregnancy in, I. Morphological changes in the cow in relation to fetal development, 643
Cerium as an inert marker
Use of neutron activation analysis in the determination of digestibility with, 899
Cervicovaginal mucus, ovine
Free amino acid content of, 430
Characteristics, quality
Breed, vitamin A supplementation and position effects on, of beef short loin steaks, 349
Chemical composition
As related to selected measurements used in beef carcass evaluation, 744
Chick
Sulfur amino acid nutrition of the growing, :

Quantitative aspects concerning the efficacy of dietary methionine, cysteine and cystine, 1005
Chicks
Effects of corn selenium content and drying temperature and of supplemental vitamin E on growth, liver selenium and blood vitamin E content of, 996
Chicks, growing
Tryptophan requirement of, as affected by dietary protein level, 595
Chlormadinone acetate (estrostat®)
Effects of, on preweaning and postweaning growth rate and breeding efficiency of beef heifers, 421
Chlortetracycline-sulfamethzaine supplementation
Feeder lamb repsonse to, 878
Citrate, ferric
Effect of excess dietary iron as ferrous sulfate and, on tissue mineral composition of sheep, 481
Citrus pulp
Effect of beet pulp and, on rumination activity, 472
Clomiphene
Effect of *cis* and *trans* isomers of, on reproductive performance in ewes, 607
Coconut meal
Composition, apparent digestibility and energy evaluation of coconut oil and, 366
Effect of Coturnix quail and of, and coconut oil on performance, carcass measurements and fat composition in swine, 370
Coconut oil
Composition, apparent digestibility and energy evaluation of, and coconut meal, 366
Effect of coconut meal on Coturnix quail and of coconut meal and, on performance, carcass measurements and fat composition in swine, 370
Collagen content
Effects of age and sex on quality, tenderness, and, of bovine *longissimus* muscle, 933
Collagen, Ringer insoluble
Relationship of alkali and, to tenderness of beef heated at two rates, 958
College graduates
What does industry look for in, 182
Compound 48/80
Effect of D-tubocurarine chloride and, on muscle tenderness, 939
Conformation score
Genetic-environmental interactions in identical and fraternal twin beef cattle. II. Feed efficiency, reproductive performance, and fat thickness, 1186
Copper, effects of
Molybdenum and sulfate on performance hematology and copper stores of pigs and lambs, 771
Copper supplementation, high level
Studies of, to rations for growing swine, 52
Corn-fat supplements, ground
Ruminal NH_3, pH and VFA of beef cattle on orchardgrass pasture and self-fed liquid molasses-urea or, 507
Corn fodder pellets
Effects of various levels of sulfur upon cellulose digestion in purified diets and lignocellulose digestion in, *in vitro*, 682
Corn gluten feed
In swine diets and effect of pelleting on tryptophan availability to pigs and rats, 987
Corn silage, maturity of
Effect of, at harvest on the performance of feeder heifers, 161
Corn silages
Intake and digestibility by sheep of wilted alfalfa-timothy or, ensiled at low and high dry matter levels, 1315
Corn stover silage
Supplemented with varying increments of energy for growing dairy heifers, 1306
Cottonseed meal
Energy value of, for swine, 592
Cow
Effect of lactation and energy intake on postpartum ovarian activity in the, 1026
Physiology of pregnancy in tropically adapted cattle. I. Morphological changes in the, in relation to fetal development, 643
Cow, reproducing beef
Drylot feeding patterns for the, 1086
Cows, dairy
Variables influencing ovarian cycles in postpartum, 1053
Cows, fertile and nonfertile
Reproductive steroids in the bovine. V. Comparisons of, 0 to 42 days after breeding, 104
Cows, Hereford
Effect of age on the energy requirements of lactating, 855
Criteria, endocrine and reproductive
Pubertal relationships of some, in Hereford bulls, 823
Crossbreds, Angus-Holstein
Productivity as two-year-olds of, compared to Angus heifers under range conditions, 337
Crossing, results from
Beef x beef and beef x dairy breeds: Postweaning performance of Heifers, 736
Cyclophosphamide
Effects of, in rams, 1022
Cysteine
Sulfur amino acid nutrition of the growing chick: Quantitative aspects concerning the efficacy of dietary methionine, and cystine, 1005
Cystine
Sulfur amino acid nutrition of the growing chick: Quantitative aspects concerning the efficacy of dietary methionine, cysteine and, 1005

D

Diet composition, effect of
On diet preference by lambs, 861
Diet, low zinc
Effect of a, during gestation on reproduction in the rabbit, 1255
Dietary iron, excess
Effect of, as ferrous sulfate and ferric citrate on tissue mineral composition of sheep, 481
Dietary o,p′-DDT
Influence of, on reproduction and lactation of ewes, 1288
Diethylstilbestrol
Levels and isomers of, for finishing steers, 491
Diets, digestible energy ratio
Effects of digestible protein to, on quantitative and qualitative carcass composition of beef, 355
Diets, full-fed
Limited-fed diets equal in total protein and energy to, for pigs in drylot and pasture, 390
Diets, limited-fed
Equal in total protein and energy to full-fed diets for pigs in drylot and pasture, 390
Diets, liquid
Comparative utilization of casein, fish protein con-

centrate and isolated soybean protein in, for growth of baby pigs, 587
Diets, purified and natural
Growth and reproductive performance of bulls and heifers fed, IV. Semen characteristics, body measurements and fertility of bulls (22 to 156 weeks of age), 808
Diets, swine
Corn gluten feed in, and effect of pelleting on tryptophan availability to pigs and rats, 987
Digestion, cellulose and lignocellulose
Effects of various levels of sulfur upon, in purified diets and in corn fodder pellets *in vitro*, 682
Digestion, tryptic
Of muscle components simulates many of the changes caused by postmortem storage, 963
Digestibility
Studies of the adaptation phenomenon by lambs fed urea as the sole nitrogen source:, and nutrient balance, 1298
Digestibilty, *in vitro*
Factors affecting the, of high moisture sorghum grain, 1321
Digestibility in steers
Relative effects of different supplemental magnesium sources on apparent, 502
D-tubocurarine chloride
Effect of, and compound 48/80 on muscle tenderness, 939
Doctorate teaching degree, the, 906

E

EDTA
Body composition in the growing rat as affected by dietary lactose, calcium, buffering capacity and, 765
Embryo development in the mammal
Early,. I. Effects of experimental alterations during first cell division in the mouse zygote, 86
Endocrine influences
Some, on the growth and carcass quality of Holstein heifers, 836
Energy intake
Effect of lactation and, on postpartum ovarian activity in the cow, 1026
Energy retention in lambs
As influenced by various levels of sodium and potassium in the rations, 872
Environments
Performance of two lines of Hereford cattle in two, 923
Enzyme activities, pancreatic
Of pigs up to three weeks of age, 1270
Equines
Prediction of digestible components of forages by, 38
Estrous cycle, effects of
And pregnancy on certain characteristics of porcine skeletal muscle, 944
Estrus, control · f
And ovulation using subcutaneous implants and estrogens in beef cattle, 600
Estrus synchronization
And subsequent fertility in dairy cattle treated with 17-alpha-ethyl-19-nortestosterone (Nilevar) and 17-alpha-ethynyl-19-nortestosterone (SC-4640), 96
Evaluation, enzymatic
Of processes for improving agricultural wastes for ruminant feeds, 167
Ewe lambs
Supplementation for wintering range, I. Effect on growth and estrus as ewe lambs, 711
Ewe milk
Influence of energy level, creep feeding and lactation stage on, and lamb growth characters, 686
Ewe productivity
Genotype-environment interaction in sheep. I., 556
Ewes
Effect of *cis* and *trans* isomers of clomiphene on reproductive performance in, 607
Influence of dietary o,p'-DDT on reproduction and lactation of, 1288
Ewes, luteinizing hormone-treated
Estradiol-induced luteal regression in unilaterally hysterectomized and, 426
Ewes, Targhee
Breeding pattern in, and ewe lambs throughout the year, 1278
Ewes, unilaterally hysterectomized
Estradiol-induced luteal regression in, and luteinizing hormone-treated, 426

F

Factors, correction
Body weight and backfat deposition in swine: Curves and, 911
Fat content
Of trimmed beef muscles as influenced by quality grade, yield grade, marbling score and sex, 948
Fat, level of dietary
Influence of, on adipose tissue lipogenesis and enzymatic activity in the pig, 1248
Fat source
Effect of, on pancreatic lipase activity and specificity and performance of baby pigs, 385
Fat thickness
Body measurements of beef calves and traits of their dams to predict calf performance and body composition as indicated by, and condition score, 7
Genetic-environmental interactions in identical and fraternal twin beef cattle. II. Feed efficiency, reproductive performance, conformation score and, 1186
Fatty acid composition
Of pork lipids as affected by basal diets, fat source and fat level, 1224
Fatty acids, blood serum
Influence of ovarian hormones on, 629
Fatty acids, rumen volatile
Chemical additives in rumen fermentations; *In vivo* effects of two antiprotozoal compounds on, 662
Fecal collection apparatus
Nutrient digestibility using, and indicator method for steers fed *ad libitum*, 695
Feed intake, restricted
Effect of, on ovarian compensatory hypertrophy in the rat. 83
Feeding device, automatic
Rearing neonatal piglets of low birth weight with an, 47
Feeding value, comparative
Of pelleted Pensacola bahaigrass, coastal bermudagrass and coastcross-1 bermudagrass harvested at four and eight weeks of age, 147
Feedlot trials, experimental
Methods for improving and interpretation of, 885

Feeds, fermented
A rapid method for the direct chemical determination of water in, 1310
Fermentation
Effects of added urea and ammonium polyphosphate on, of corn stover silages, 1097
Fistula, esophageal
Separation of true selective grazing by cattle from effects of the, 1124
Floury-2 corn, Colombian
Limiting amino acids in, for growth of young rats, 787
Performance of rats and swine fed, Colombian *opaque-2* or normal corn, 791
Fluids, oviduct and uterine
Secretion rates and chemical composition of, in rabbits, 829
Forage, Tamarugo (Prosopis Tamarugo Phil.)
Digestibility, total digestible nutrient and nitrogen balance studies on, 667
Forages, digestible components of
Prediction of, by equines, 38
Forages, digestibility of
Changes in carbohydrate and nitrogen fractions and: Method of sample processing, 1072
Forages *in vitro*
Digestibility of, as affected by content of "Silica", 466

G

Genetic analysis
Of degree of maturity, 717
Genetic-environmental interactions
In identical and fraternal twin beef cattle: I. Growth from 7 to 24 months of age, 1177
In identical and fraternal twin beef cattle. II. Feed efficiency, reproductive performance, conformation score and fat thickness, 1186
Genetic parameters
For selected beef-carcass traits, 13
Genetic relationships
Among growth and carcass traits of beef cattle, 550
Between mature weight and time taken to mature within a breed, 726
Genotype-environment interaction
In sheep. I. Ewe productivity, 556
In sheep. II. Lamb performance traits, 732
Glucose turnover
Effect of fasting, gestation, lactation and exercise on, in horses, 1001
Gonadotropin (HCG), chorionic
Ovulation rates of beef cows and heifers treated with equine gonadotropin (PMS) and, 443
Gonadotropin, equine (PMS)
Ovulation rates of beef cows and heifers treated with, and chorionic gonadotropin (HCG), 443
Gonadotropin, human chorionic
Effect of pretreating heifers with estradiol on subsequent *in vitro* luteal tissue protesterone biosynthesis, 1032
Gonadotropin treatment
Effects of age and, on superovulation in the calf, 617
Grass, elephant
Biuret and urea in supplements for bovines fed green chop, 133
Grass straw
Composition and improvement of, for ruminant nutrition, 151
Grazing, true selective
Separation of, by cattle from effects of the esophageal fistula, 1124
Growth, compensatory,
In intensively raised bull calves, 1078
Gylcogen
From bovine muscle: Partial characterization of the water-extracted product, 23

H

Ham, cured
Relationship of fresh ham traits to, quality, 362
Ham traits, fresh
Relationship of, to cured ham quality, 362
Heat exposure, duration of
And performance of beef cattle, 850
Heifers
Effect of pretreating, with human chorionic gonadotropin and estradiol on subsequent *in vitro* luteal tissue progesterone biosynthesis, 1032
Growth and reproductive performance of bulls and, fed purified and natural diets. IV. Semen characteristics, body measurements and fertility of bulls (22 to 156 weeks of age). 808
Results from crossing beef x beef and beef x dairy breeds: Postweaning performance of, 736
Serum biochemical and hematological measurements of heat tolerant (Zebu) and cold tolerant (Scotch Highland), 655
Heifers, Angus
Productivity as two-year-olds of Angus-Holstein crossbreds compared to, under range conditions, 337
Heifers, beef
Effects of chlormadinone acetate (estrostat®) on preweaning and postweaning growth rate and breeding efficiency of, 421
Heifers, dairy
Corn stover silage supplemented with varying increments of energy for growing, 1306
Heifers, diethylstilbestrol-implanted
Urea and aldrin in all-concentrate and high roughage diets fed to, 520
Heifers, feeder
Effect of maturity of corn silage at harvest on the performance of, 161
Heifers, Holstein
LH and prolactin in blood serum from estrus to ovulation in, 1038
Some endocrine influences on the growth and carcass quality of, 836
Hematology, performance
Effects of copper, molybdenum and sulfate on, and copper stores of pigs and lambs, 771
Heptachlor residues
Accumulation and dissipation of, in fattening steers, 127
Hereford heifers
Age and weight at puberty in, 401
Precalving body size and pelvic area relationships in, 455
Hereford lines, closed
Estimated direct and correlated response to selection for performance traits in, under different types of environments, 541
Hormonal control
Of reproductive activity in Karakul ewes, 623

Hormone levels, luteinizing
Progesterone and, in peripheral blood of cycling beef cows, 99
Hormone, luteinizing
Neuropypophysial hormone and the release of, from bovine pituitary slices *in vitro*, 1042
Oxytocin and the secretion of, in cattle, 1048
Hormone, neuropypophysial
And the release of luteinizing hormone from bovine pituitary slices *in vitro*, 1042
Hormone supplementation, influence of
Dietary protein level and sex on the performance and carcass quality of swine, 780
Hormones
A review: Relationships of some, to growth and carcass quality of ruminants, 64
Hormones, ovarian
Influence of, on blood serum fatty acids, 629
Horses
Comparison of a blend of milk products and linseed meal as protein supplements for young growing, 1274
Effect of fasting, gestation, lactation and exercise on glucose turnover in, 1001
Housing system, effect of
And duration on quantitative and qualitative carcass traits in swine, 18
Hypertrophy, ovarian compensatory
Effect of restricted feed intake on, in the rat, 83

I

Indexes, conventional selection
For birth and weaning traits in beef calves, 537
Indices
For estimating percent trimmed leg and loin in lambs, 1232
Industry
What does, look for in college graduates, 182
Infections, intramammary
Incidence of, and effects of number of lactations, lactation stage, quarter and calf sex on somatic cell content of milk from Angus-Holstein F_1 cows, 433
Iron
Effects of dietary protein and, on reproduction and iron-related blood constituents in swine, 376
Iron, dietary
Influence of, and phosphorus on performance tissue, mineral composition and mineral absorption in steers, 171

K

Karakul ewes
Hormonal control of reproductive activity in, 623
Kelthane residues
On Gravenstein apples and pomace—Application and removal, 1327
Kentucky bluegrass
Limited protein and energy for wintering yearling steers on standing, 691

L

LH
And prolactin in blood serum from estrus to ovulation in Holstein heifers, 1038
Lactation
Genetic-environmental interactions in identical and fraternal twin beef cattle. III. Weight change, feed consumption and production traits during, 1198
Lactation, effect of
And energy intake on postpartum ovarian activity in the cow, 1026
Lactation feeding level, effect of
Of the sow on performance and subsequent reproduction, 30
Lactations, number of
Incidence of intramammary infections and effects of, lactation stage, quarter and calf sex on somatic cell content of milk from Angus-Holstein F_1 cows, 433
Lactic acidosis, ovine:
Intraruminal and systemic, 698
Lamb
Genotype-environment interaction in sheep. II., performance traits, 732
Lamb, feeder
Response to chlortetracycline-sulfamethzaine supplementation, 878
Lamb growth
Effect of breed, ration energy level and their interactions on rate and efficiency of, 157
Lamb growth characters
Influence of energy level, creep feeding and lactation stage on ewe milk and, 686
Lambs
Effect of diet composition on diet preference by, 861
Energy retention in, as influenced by various levels of sodium and potassium in the rations, 872
Indices for estimating percent trimmed leg and loin in, 1232
Studies of the adaptation phenomenon by, fed urea as the sole nitrogen source: Digestibility and nutrient balance, 1298
Lambs, ewe
Breeding pattern in Targhee ewes and, throughout the year, 1278
Factors influencing reproduction in, 1282
Lambs, growth of
Effects of feeding alkali-treated oat straw supplemented with soybean meal or nonprotein nitrogen on, and on certain blood and rumen liquor parameters, 485
Lambs, Hampshire
Evaluation of the seventh rib probe and body weight as predictors of carcass traits in, 568
Lambs, performance of spring *vs.* fall-born
Association of certain variables with the, 531
Lambs, Rambouillet ewe
Genetic and phenotypic parameters including occurrence of estrus in, 919
Linseed meal
Comparison of a blend of milk products and, as protein supplements for young growing horses, 1274
Lipids, pork
Fatty acid composition of, as affected by basal diet, fat source and fat level, 1224
Lipogenesis, adipose tissue
Influence of level of dietary fat on, and enzymatic activity in the pig, 1248
Log log interpolation
For assays using liquid scintillation, 819

Luteal regression, estradiol-induced
In unilaterally hysterectomized and luteinizing hormone-treated ewes, 426
Lysine
Urea as a nitrogen source for pigs fed diets supplemented with, and methionine, 58

M

Magnesium sources, supplemental
Relative effects of different, on apparent digestibility in steers, 502
Maize (*Zea Mays L.*)
In vitro dry matter disappearance of brown midrib mutants of, 881
Maturity, degree of
Genetic analysis of, 717
Maturity, effects of
On chemical composition and digestibility of bird resistant sorghum plants when fed to sheep as silages, 1102
Measurements of animals
Analysis of repeated, 331
Methallibure
Metabolites of 1-(α-Methylallylthiocarbamoyl)-2-Methylthiocarbamoyl-hydrazine (methallibure) in swine, 638
Photolysis of 1-α-Methylallylthiocarbamoyl-2-methylthiocarbamoylhydrazine, to a thiadizaole in the presence and absence of rumen microorganisma, 497
Methionine
Urea as a nitrogen source for pigs fed diets supplemented with lysine and, 58
Methionine, dietary
Sulfur amino acid nutrition of the growing chick: Quantitative aspects concerning the efficacy of, cysteine and cystine, 1005
Milk
Incidence of intramammary infections and effects of number of lactations, lactation stage, quarter and calf sex on somatic cell content of, from Angus-Holstein F_1 cows, 433
Milk production
In lactating sows and time lengths used in evaluating milk production estimates, 35
Milk yield
And its influence on 205-day weight of beef calves, 563
Mineral research
A review of recent, with sheep, 1332
Mink
Termination of pregnancy in, by repeated injections during the period preceeding implantation, 659
Mitochondria
Respiration of, isolated from dark-cutting beef, 574
Molasses-urea, liquid
Ruminal NH_3, pH and VFA of beef cattle on orchardgrass pasture and self-fed, or ground corn-fat supplements, 507
Molybdenum and sulfate
Effects of copper, on performance hematology and copper stores of pigs and lambs, 771
Montmorillonite clay
In feed lot rations, 891
Mouse zygote
Early embryo development in the mammal. I. Effects of experimental alterations during first cell division in the, 86
Muscle, bovine *longissimus*
Effects of age and sex on quality, tenderness and collagen content of, 933
Muscle, porcine and bovine
Innervation of, 750
Muscle, porcine skeletal
Effects of estrous cycle and pregnancy on certain characteristics of, 944
Muscles, beef
Fat content of trimmed, as influenced by quality grade, yield grade, marbling score and sex, 948

N

Neutron activation analysis, use of
In the determination of digestibility with cerium as an inert marker, 899
Newsprint
As a feedstuff for beef cattle, 1344
Nigrospora oryzae and *Cladosporium*
Effect of feeding corn inoculated with, on the performance of growing swine and rats, 1259
Nilevar
Estrus synchronization and subsequent fertility in dairy cattle treated with 17-alpha-ethyl-19-nortestosterone, and 17-alpha-ethynyl-19-nortestosterone (SC4640), 96
Nitrogen fractions
Changes in carbohydrate and, digestibility of forages: Method of sample processing, 1072
Nitrogen metabolism
Tapazole in steer finishing rations:, 1375
Nitrogen, nonprotein
Effects of feeding alkali-treated oat straw supplemented with soybean meal or, on growth of lambs and on certain blood and rumen liquor parameters, 485
Nitrogen source
Urea as a, for pigs fed diets supplemented with lysine and methionine, 58
Nitrogen source, supplemental
And physical form of corn for finishing steers fed corn silage, 895
Nutrient balance
Studies of the adaptation phenomenon by lambs fed urea as the sole nitrogen source: Digestibility and, 1298
Nutrient digestibility
Using fecal collection apparatus and indicator method for steers fed *ad libitum*, 695
Nutrition, sulfur amino acid
Of the growing chick: Quantitative aspects concerning the efficacy of dietary methionine, cysteine and cystine, 1005

O

Oat straw, alkali-treated
Effects of feeding, supplemented with soybean meal or nonprotein nitrogen on growth of lambs and on certain blood and rumen liquor parameters, 485

Obesity
Some effects of, in beef females, 1129
Observations, anatomical and histological
On reproductive organs in superovulated calves, 799
Opaque-2, Colombian
Performance of rats and swine fed Colombian *floury-2*, or normal corn, 791
Orchardgrass pasture
Ruminal NH_3, pH and VFA of beef cattle on, and self-fed liquid molasses-urea or ground corn-fat supplements, 507
Ovarian cycles
Variables influencing, in postpartum dairy cows, 1053
Ovary, bovine
Effect of a progestin on the, 77
Ovine lactic adiposis:
Intraruminal and systemic, 698
Ovine yield grades
I. Retail case-life, 759
Ovulation
Control of estrus and, using subcutaneous implants and estrogens in beef cattle, 600
Ovulation rates
Of beef cows and heifers treated with equine gonadotropin (PMS) and chorionic gonadotropin (HCG), 443
Oxytocin
And the secretion of luteinizing hormone in cattle, 1048

P

Pancreatic lipase activity
Effect of fat source on, and specificity and performance of baby pigs, 385
Parameters, genetic and phenotypic
Including occurrence of estrus in Rambouillet ewe lambs, 919
Pasture programs
Reproduction in Brahman, Shorthorn and crossbred cows on different, 458
Pelleting
Corn gluten feed in swine diets and effect of pelleting on tryptophan availability to pigs and rats, 987
Pelvic area
Precalving body size and, relationships in Hereford heifers, 455
Performance, animal
Effects of added urea and ammonium polyphosphate to corn stover silages on, 1091
Performance, postweaning
Results from crossing beef x beef and beef x dairy breeds:, of heifers, 736
Performance traits, selection for
Estimated direct and correlated response to, in closed Hereford lines under different types of environments, 541
Phosphorus
Influence of dietary iron and, on performance, tissue mineral composition and mineral absorption in steers, 171
Pig
Influence of level of dietary fat on adipose tissue lipogenesis and enzymatic activity in the, 1248
Pig, neonatal
Certain aspects on the utilization of carbohydrates by the, 983
Piglets, neonatal
Rearing, of low birth weight with an automatic feeding device, 47
Pigs
Corn gluten feed in swine diets and effect of pelleting on tryptophan availability to, and rats, 987
Determination of 5α-androst-16-en-3-one, a boar taint steroid in, with reference to relationships to testosterone, 1293
Pancreatic enzyme activities of, up to three weeks of age, 1270
Pigs, baby
Comparative utilization of casein, fish protein concentrate and isolated soybean protein in liquid diets for growth of, 587
Effect of fat source on pancreatic lipase activity and specificity and performance of, 385
Pigs, early-weaned
Soy flour as a protein source for, 514
Plasma growth hormone levels
Effect of feeding, fasting and infusion of energy substrates on, in cattle, 612
Plasma insulin levels
Metabolic regulation of, in cattle, 438
Plasma progesterone concentrations
Before mating and in early pregnancy in the beef heifer, 450
Polysaccharide content, cell-free
Bloat in cattle. XV. The relation of viscosity and, of rumen fluid to feedlot bloat, 1018
Ponies
Digestion coefficients, blood glucose levels and molar percentage of volatile acids in intestinal fluid of, fed varying forage-grain ratios, 992
Pork, properties of
Studies on chemical and physical, in relation to quality, 578
Postpartum ovarian activity
Effect of lactation and energy intake on, in the cow, 1026
Potassium
Energy retention in lambs as influenced by various levels of sodium and, in the rations, 872
Pregnancy
Effects of estrous cycle and, on certain characteristics of porcine skeletal muscle, 944
Reproductive steroids in the bovine. VI. Changes and interrelationships from 0 to 260 days of, 115
Pregnancy in mink
Termination of, by repeated injections during the period preceeding implantation, 659
Pregnancy, physiology of
In tropically adapted cattle. I. Morphological changes in the cow in relation to fetal development, 643
Productivity
As two-year-olds of Angus-Holstein crossbreds compared to Angus heifers under range conditions, 337
Progesterone
And luteinizing hormone levels in peripheral blood of cycling beef cows, 99
Progestin
Effect of a, on the bovine ovary, 77
Prolactin in blood serum
LH and, from estrus to ovulation in Holstein heifers, 1038
Protein
Utilization by rats of, from a trypsin-inhibitor variant soybean, 1012

Protein, dietary
Effects of, and iron on reproduction and iron-related blood constituents in swine, 376
Protein, effects of digestible
To digestible energy ratio diets on quantitative and qualitative carcass composition of beef, 355
Protein, fish
Comparative utilization of casein, concentrate and isolated soybean protein in liquid diets for growth of baby pigs, 587
Protein level, dietary
Tryptophan requirement of growing chicks as affected by, 595
Protein, limited
And energy for wintering yearling steers on standing Kentucky bluegrass, 691
Protein source
Soy flour as a, for early-weaned pigs, 514
Protein, soybean
Comparative utilization of casein, fish protein concentrate and isolated, in liquid diets for growth of baby pigs, 587
Protein supplements
Comparison of a blend of milk products and linseed meal as, for young growing horses, 1274
Protein, total
Limited-fed diets equal in, and energy to full-fed diets for pigs in drylot and pasture, 390
Protesterone biosynthesis
Effects of pretreating heifers with human chorionic gonadotropin and estradiol on subsequent *in vitro* luteal tissue, 1032
Pubertal relationships
Of some endocrine and reproductive criteria in Hereford bulls, 823
Puberty
And related phenomena in Angoni (Short Horn Zebu) bulls, 647
Puberty in Hereford heifers
Age and weight at, 401

Q

Quail, coturnix
Effect of coconut meal on, and of coconut meal and coconut oil on performance, carcass measurements and fat composition in swine, 370

R

Rabbit
Effect of low zinc diet during gestation on reproduction in the, 1255
Rabbits
Secretion rates and chemical composition of oviduct and uterine fluids in, 829
Ram
Effect of elevated ambient temperature on testis and blood levels and *in vitro* biosynthesis of testosterone in the, 804
Rams
Effects of cyclophosphamide in, 1022
Rat
Body composition in the growing, as affected by dietary lactose, calcium, buffering capacity and EDTA, 765
Ration energy level
Effect of breed, and their interactions on rate and efficiency of lamb growth, 157
Rations, carotene deficient
Effect of, and supplemental vitamin A on gain, feed utilization and liver vitamin A of calves, 476
Rations, finishing
Tapazole in steer,: Nitrogen metabolism, 1375
Rations for growing swine
Studies of high level copper supplementation to, 52
Rations, steer
Level and form of rice straw in, 1365
Ratios, forage-grain
Digestion coefficients, blood glucose levels and molar percentage of volatile acids in intestinal fluid of ponies fed varying, 992
Rats
Corn gluten feed in swine diets and effect of pelleting on tryptophan availability to pigs and, 987
Effect of feeding corn inoculated with *nigrospora oryzae* and *cladosporium* on the performance of growing swine and, 1259
Utilization by, of protein from a trypsin-inhibitor variant soybean, 1012
Rats, young
Limiting amino acids in Colombian *floury-2* corn for growth of, 787
Reproduction
Effects of dietary protein and iron on, and iron-related blood constituents in swine, 376
Factors influencing, in ewe lambs, 1282
In Brahman, Shorthorn and crossbred cows on different pasture programs, 458
Reproductive performance
Genetic-environmental interactions in identical and fraternal twin beef cattle. II. Feed efficiency, conformation score and fat thickness, 1186
Retail case-life
Ovine yield grades. I., 759
Rice straw
Level and form of, in steer rations, 1365
Rumen fermentations
Chemical additives in,: *In vivo* effects of two antiprotozoal compounds on volatile fatty acids, 662
Rumen liquor parameters
Effects of feeding alkali-treated oat straw supplemented with soybean meal or nonprotein nitrogen on growth of lambs and on certain blood and, 485
Ruminant feeds
Enzymatic evaluation of processes for improving agricultural wastes for, 167
Ruminant nutrition
Composition and improvement of grass straw for, 151
Ruminants
A review: Relationships of some hormones to growth and carcass quality of, 64
Ruminants, growing-finishing
Effect of zearalanol on the performance and carcass composition of, 865
Rumination activity
Effect of beet pulp and citrus pulp on, 472
Physical stimulation of, 1118

S

Salt-supplement, self-feeding
To grazing steers under tropical conditions, 142
Sample processing
Changes in carbohydrate and nitrogen fractions and digestibility of forages: Methods of, 1072
Scintillation, liquid
Log log interpolation for assays using, 819

Secretion rates
And chemical composition of oviduct and uterine fluids in rabbits, 829
Selection, date of birth
Phenotypic response and time trends to, in Southdown sheep, 1216
Selection, mass
Response to recurrent, for small size in swine, 1212
Selenium, corn
Effects of, content and drying temperature and of supplemental vitamin E on growth, liver selenium and blood vitamin E content of chicks, 996
Sheep
A review of recent mineral research with, 1332
Effect of excess dietary iron as ferrous sulfate and ferric citrate on tissue mineral composition of, 481
Effects of maturity on chemical composition and digestibility of bird resistant sorghum plants when fed to, as silages, 1102
Genotype-environment interaction in, I. Ewe productivity, 556; II. Lamb performance traits, 732
Intake and digestibility by, of wilted alfalfa-timothy or corn silages ensiled at low and high dry matter levels, 1315
Sheep, Southdown
Phenotypic response and time trends to date of birth selection in, 1216
Sex condition
Effect of, on growth and carcass traits of male Hereford and Angus cattle, 1242
Sex, effects of
And age on quality, tenderness and collagen content of bovine *longissimus* muscle, 933
Silage, corn
Supplemental nitrogen source and physical form of corn for finishing steers fed, 895
Silages, corn stover
Effects of added urea and ammonium polyphosphate to, on animal performance, 1091
Effects of added urea and ammonium polyphosphate on fermentation of, 1097
Silica
Digestibility of forages *in vitro* as affected by content of, 466
Sodium
Energy retention in lambs as influenced by various levels of, and potassium in the rations, 872
Sorghum grain
Ruminal and postruminal carbohydrate utilization in steers fed processed, 1371
Sorghum grain, high moisture
Factors affecting the *in vitro* digestibility of, 1321
Sorghum plants, bird resistant
Effects of maturity on chemical composition and digestibility of, when fed to sheep as silages, 1102
Sow
Effect of lactation feeding level of the, on performance and subsequent reproduction, 30
Sow, lactating
Sulfur amino acid requirement of the, 394
Sows, lactating
Milk production in, and time lengths used in evaluating milk production estimates, 35
Soy flour
As a protein source for early-weaned pigs, 514
Soybean
Utilization by rats of protein from a trypsin-inhibitor variant, 1012
Soybean meal
Effects of feeding alkali-treated oat straw supplemented with, or nonprotein nitrogen on growth of lambs and on certain blood and rumen liquor parameters, 485
Steaks, beef short loin
Breed, vitamin A supplementation and position effects on quality characteristics of, 349
Steers
Adipose tissue concentrations of certain pesticides in, fed apple waste during different parts of the finishing period, 1356
Effects of feeding activated carbon on growth rate and pesticide concentrations in adipose tissue of, fed apple waste, 1361
Influence of ammonium salts of volatile fatty acids upon ration digestibility, rumen fermentation and nitrogen retention by, 1110
Ruminal and postruminal carbohydrate utilization in, fed processed sorghum grain, 1371
Steers, dairy
Effects of feeding urea on physiological, pathological and carcass traits of, 677
Steers, fattening
Accumulation and dissipation of heptachlor residues in, 127
Steroids, reproductive
In the bovine. VI. Changes and interrelationships from 0 to 260 days of pregnancy, 115
In the bovine. VII. Changes postpartum
Storage, postmortem
Tryptic digestion of muscle components simulates many of the changes caused by, 963
Sugar, raw
As an energy source in steer finishing rations, 706
Sulfate
Effects of copper, molybdenum and, on performance hematology and copper stores of pigs and lambs, 771
Sulfate, ferrous
Effect of excess dietary iron as, and ferric citrate tissue mineral composition of sheep, 481
Sulfathiazole
Tissue-residue depletion of, in swine, 797
Sulfur
Effects of various levels of, upon cellulose digestion in purified diets and lignocellulose digestion in corn fodder pellets *in vitro*, 682
Sulfur amino acid requirement
Of the lactating sow, 394
Superovulation in the calf
Effects of age and gonadotropin treatment of, 617
Swine
Body weight and backfat deposition in,: Curves and correction factors, 911
Effect of coconut meal on coturnix quail and of coconut meal and coconut oil on performance, carcass measurements and fat composition in, 370
Effects of dietary protein and iron on reproduction and iron-related blood constituents in, 376
Effect of feeding corn inoculated with *nigrospora oryzae* and *cladosporium* on the performance of growing, and rats, 1259
Effect of grain, particle size and pellets on development of gastric ulcers in, 1263
Influence of hormone supplementation, diets and protein level and sex on the performance and carcass quality of, 780
Maternal effects on weights and backfat of, 1206
Response to recurrent mass selection for small size in, 1212

Studies on the nutritive value of *triticale* for growing, 1266
Tissue-residue depletion of sulfathiazole in, 797

T

Tamarugo forage (Prosopis Tamarugo Phil.)
Digestibility, total digestible nutrient and nitrogen balance studies on, 667
Tapazole
In steer finishing rations: Nitrogen metabolism, 1375
Teachers, future
Is animal science training, 179
Teaching degree, the doctorate, 906
Temperature, elevated ambient
Effect of, on testis and blood levels and *in vitro* biosynthesis of testosterone in the ram, 804
Testosterone
Determination of 5α-androst-16-en-3-one, a boar taint steroid in pigs, with reference to relationships to, 1293
Effect of elevated ambient temperature on testis and blood levels and *in vitro* biosynthesis of, in the ram, 804
Testosterone level
Of boars at various ages, 124
Triticale
Studies on the nutritive value of, for growing swine, 1266
Tropics of Latin America
Animal breeding in the, 1
Trypsin-inhibitor
Utilization by rats of protein from a, variant soybean, 1012
Tryptophan
Requirement of growing chicks as affected by dietary protein level, 595
Tryptophan availability
Corn gluten feed in swine diets and effect of pelleting on, to pigs and rats, 987
Tryptophan (D- and L-)
Quantitative aspects of, utilization by the young pig, 42

U

Ulcers, gastric
Effect of grain particle size and pellets on development of, in swine, 1263
Urea
And aldrin in all-concentrate and high roughage diets fed to diethylstilbestrol-implanted heifers, 520
As a nitrogen source for pigs fed diets supplemented with lysine and methionine, 58
Biuret and, in supplements for bovines fed green chop elephant grass, 133
Effects of added, and ammonium polyphosphate to corn stover silages on animal performance, 1091
Effects of added, and ammonium polyphosphate on fermentation of corn stover silages, 1097
Effects of feeding, on physiological, pathological and carcass traits of dairy steers, 677
Studies of the adaptation phenomenon by lambs fed, as the sole nitrogen source: Digestibility and nutrient balance, 1298
Urea nitrogen
Effect of dehydrated alfalfa products on the utilization of, in beef cattle, 671

V

Vitamin A, liver
Effect of carotene deficient rations and supplemental vitamin A on grain, feed utilization and, of calves, 476
Vitamin A, supplemental
Effect of carotene deficient rations and, on gain, feed utilization and liver vitamin A of calves, 476
Vitamin A supplementation
Breed, and position effects on quality characteristics of beef short loin steaks, 349
Vitamin E
Effect of corn selenium content and drying temperature and of supplemental, on growth, liver selenium and blood, content of chicks, 996
Volume
A comparison of two systems for measuring, by air displacement, 1237

W

Wastes, agricultural
Enzymatic evaluation of processes for improving, for ruminant feeds, 167
Water, chemical determination of
A rapid method for the direct, in fermented feeds, 1310
Weight
Age and, at puberty in Hereford heifers, 401
Weight gain, body
And wool growth response to formaldehyde treated casein and sulfur amino acids, 137
Weight, mature
Genetic relationships between, and time taken to mature within a breed, 726
Weight, 205-day
Milk yield and its influence on, of beef calves, 563
Weights
Maternal effects on, and backfat of swine, 1206
Weights, calf weaning
Relationships between cow weights and, in Angus, Charolais and Hereford breeds, 343
Weights, cow
Relationships between, and calf weaning weights in Angus, Charolais and Hereford breeds, 343
Wool, growth
Body weight gain and, response to formaldehyde treated casein and sulfur amino acids, 137

Z

Zearalanol, effect of
On the performance and carcass composition of growing-finishing ruminants, 865

AUTHORS INDEX FOR VOLUME 33, 1971

Page numbers of abstracts for the National and Sectional Meetings are identified by an asterisk.
